Course Fee

1,100.00 Euro net plus VAT, where applicable

Special price for the members of the EUPSA:
1,020.00 Euro net plus VAT, where applicable

including course documentation, food & beverages during the course as well as hotel accommodation for 2 nights.

Your registration will be valid upon receipt of a written confirmation.

In order to ensure your booking please provide us with your credit card details on the registration form.

An invoice will be sent you approximately 4 weeks prior to the course.

Cancellation Terms

If a participant cancels his/her registration 4 weeks or more before the beginning of the event, the course fee will be reimbursed in full. After this time and up to 14 days before the seminar begins, we offer to offset the value of the fee by crediting it to another seminar. If this is not acceptable to the participant, we shall charge an administration fee of 10% or at least 30.00 Euro. For cancellations made between 14 and 7 days before the event, we reserve the right to charge half the course fee. The full course fee will be payable for cancellation after this period or for non-attendance. The general terms and conditions of Aesculap Akademie GmbH are applicable and can be forwarded on request.

Advanced minimally invasive pediatric surgery

International workshop and hands-on course on small animal models

14 - 15 November 2014

Berlin | Germany

Dear colleagues

At a time when minimally invasive pediatric surgery has evolved as standard technique, training remains a challenge. Training can be enriched by workshops using animal models similar to clinical conditions. In our experience, small animal models are extremely valuable in this respect. Therefore, we want to invite you to an international workshop and hands-on course for minimally invasive pediatric surgery using small animal models.

Initially, basic techniques of access, exposure, suturing and knotting in small cavities will be trained on chicken and living rats. The workshop is focused on specific abdominal, thoracic and even esophageal minimally invasive procedures. We guarantee that participants will be able to perform numerous operations, such as fundoplication, nephrectomy or splenectomy themselves. The facility at the Aesculap Academy training center in Berlin is excellent and fulfills all needs for such a workshop.

A very limited number of participants will be trained by experts in minimally invasive surgery and the relation in numbers between experts and participants will be optimal. There will be room for extensive discussions on different concepts, views and opinions. The participants will then understand that different surgeons use different concepts.

The workshop is accredited by the European Pediatric Surgeons Association (EUPSA). It is supported by the German Association of Pediatric Surgeons and its Workgroup Minimally Invasive Pediatric Surgeons, and the German Association of Surgeons.

Come and spend some interesting days with us in Berlin.

Looking forward to seeing you.

Best regards

Benno Ure
Chairman of Pediatric Surgery, Hannover Medical School

- Two day hands-on course on living rats and a chicken model
- Specific anatomy, access techniques, exposure, suturing and knotting in small spaces
- Fundoplication, nephrectomy, splenectomy, bowel anastomosis, diaphragmatic reconstruction, esophageal anastomosis
- Full equipment and more than one expert for every two operation tables
- Video presentation and discussion of specific operations by faculty members

Date

Berlin 14 - 15 November 2014

Course commences at 8.00 am on day 1 and ends at 6.00 pm on day 2.

Faculty

Professor Benno M. Ure, MD
