

Advanced Laparoscopic Gastrointestinal Surgery Workshop

30 November – 1 December 2015

RCS London

A practical workshop giving you the opportunity to learn and practise on unembalmed cadavers, the steps of a defined set of operative procedures which are relevant to both paediatric and general surgical training. The course is held in the College's state-of-the-art training facilities and ultrasonic (harmonic) scalpel is used extensively.

Course contents include:

- Revision of laparoscopic suturing
- Safe port insertion
- Hiatal dissection
- Heller's cardiomyotomy
- Division of short gastric vessels

Learning outcomes include:

- Perform a range of laparoscopic dissection techniques
- Identify common operative pitfalls
- Operate laparoscopic stapling devices safely
- Describe the operative steps of a range of paediatric and adult laparoscopic upper and lower G.I procedures

Who should attend?

Senior trainees (ST7 & 8) and junior consultants in paediatric and general surgery, SAS Grade

Course Fee

£1015

Course Directors

Mr Girish Jawaheer

Consultant Paediatric Surgeon
Birmingham Children's Hospital

Ms. Avril Chang

Consultant General Surgeon
King's College Hospital NHS Foundation Trust

Why take this course?

This course provides realistic training with ample opportunity to practise and consolidate skills in both upper and lower gastrointestinal laparoscopic procedures.

The ultrasonic (harmonic) scalpel is used extensively in the course.
