

Advanced Laparoscopic Gastrointestinal Surgery Workshop

An opportunity for senior trainees and consultants to learn and practise, on unembalmed adult cadavers, the steps of a defined set of operative procedures which are relevant to both paediatric and general surgical training.

Course content includes

- Revision of laparoscopic suturing and knot tying
- Safe port insertion
- Hiatal dissection
- Heller's cardiomyotomy

Format

- Practical workshops using unembalmed cadavers
- Simulation Procedure-Based Assessment (sPBAs)
- High Definition Endoscopic Stack Systems (Storz 'SPIES') and Harmonic scalpel systems (Ethicon Endo-Surgery)

Who should attend?

ST7-8, consultants and SAS Grades

Delegate feedback

'I am very happy because after the course I operated some laparoscopic appendicitis and one splenectomy with confidence.'

Dates

12 - 13 April 2016

Held at

RCS London
