Introduction to the Course

Dear Colleagues and Friends,

It is for me a great pleasure to invite You to join the annual edition of our Course in Paediatric Urology : “How we do it”, which will take place at the main site of the Bambino Gesù Children’s Hospital at the Gianicolo, on December 6th and 7th, 2013.

The Course, at its 8th Edition, has the aim to focus different issues in Paediatric Urology, through sessions of live surgery, lectures, and videos. Main topic of this year will be “The mini-invasive surgery in paediatric urology”. In order to be an opportunity of growth especially for young paediatric surgeons and urologists, great place will be given to interactive discussion of clinical cases, therapeutic options and surgical mini-invasive techniques together with experts in the field.

This is why we will be able to accept only 40 participants. The deadline for acceptance of application forms is November 15th.

Looking forward to seeing You in Rome shortly, I send You all my best regards.

Paolo Caione
